## DEDICATION

This Record of the Sacramental Registers of St. Ignatius Loyola Church, Buchanan Valley, Pennsylvania, 1864 - 1987, is respectfully dedicated to those early Jesuits who established this congregation and to all those families who have worshipped here throughout the years. It is also dedicated to the memory of Father William W. Whalen who served this Parish in his own inimitable way.

Note: The author has many personal Recollections of Father Whalen as he served the "summer people" in the late thirties. ASC

## PREFACE

We are pleased to offer this volume of Parish Records, the sixth in our ongoing series recording the Catholic settlers of the Conewago Valley. Looking at this volume with hindsight, it is readily apparent that these records would be better placed in a history of the Cumberland Valley. However, since the Church was founded by the Priests from Conewago, we find it reasonable to make this volume a part of our Conewago Valley series. In addition, while it is true that many of the Buchanan Valley residents came from "beyond the mountain", it is equally true that some came from the Conewago and Paradise areas of the Conewago Valley.

Any serious researcher using this volume will, by merely glancing at the title, be conscious of the fact that these records do not commence until 1864. It is known that this Church was erected in 1817 and it is believed that Masses were offered in area Mass Houses before the erection of the Church, possibly as early as 1795. We would, therefore, expect to find the early records of this Church at Conewago since the Conewago Priests served this area, but names we find in this record, with rare exception, simply do not connect with the Conewago Registers. On the basis of what we know at this time, we must assume that all, or nearly all, of the records prior to 1864 have been destroyed by a fire which was known to have occurred.

In a work of this nature, errors must, and do, occur. These errors are, generally, of two types - translation and mechanical. In translating and transcribing records, we strive to present the record exactly as it appears in the original. Even when we know the original is in error, we do not correct it. We believe that this is the only proper way to present the information and we leave it to the user to compare the various entries and, in his own mind, determine what is probably right - or wrong. Where we are prone to error is in deciding if, for example, a letter is an "a" or an "o". Thus, when we say the letter was "o" and write the name as PLONK, it very well may have been intended as an "a" and the name as PLANK. The user must search for a name under every conceivable variation of spelling when using these records.

Mechanical errors are made while typing the material. Typing the name FRANCIS for the feminine FRANCES is a good example. While we have made strenuous efforts to find and correct errors of this nature, some must surely persist. For these we offer our apology and beg your indulgence.

We have attempted to provide most of the available information in our presentation. Often the limited spaces available on the computer program were insufficient to handle the wealth

of available information. When this happened, we were forced to resort to abbreviations and changes in the usual format. These cases are readily apparent and the user, after a little study, should have no difficulty in following the information in the entry.

To Father Carl J. Steffen, for his time, patience and support, we extend our thanks. Without his assistance and cooperation, this project would have been much more difficult. We trust that he will find adequate compensation in the use of this volume.

Mrs. Donna Yake spent many hours in proof reading the manuscript and her efforts have been invaluable in eliminating many mechanical errors. To her, we are most grateful.

In this volume are the records of 859 burials, 740 baptisms, 458 primary marriages and 1957 secondary marriages. We believe that this book will be of substantial assistance to those seeking their roots in the records of this Church. The busy Parish Priest should find some relief in time; original records should be spared much use; the archivist should have another valuable record of Catholic activities in his library and the searching genealogist should be able to search the records faster, easier and greater thoroughness.

Should these goals become a reality, we shall have been amply rewarded for our labor and our dream of recording the history of the Conewago Valley Catholics through the records of their Churches will have become less a dream and more of a reality.
